

KELSEY WOODARD

FULL STACK DEVELOPER

626.656.5357

kwoodard22@gmail.com

Portfolio: kelseywoodard.com

GitHub: <https://github.com/kwoodard22>

SKILLS

Ruby on Rails | JavaScript | jQuery | AngularJS | Backbone | HTML + CSS | Bootstrap | GIT
PostgreSQL | Adobe Photoshop | Adobe Premiere Pro | TDD with RSpec | TDD with Jasmine

RELEVANT PROJECTS

[BillMate](#) | [GitHub](#)

- Billmate was my first project for WDI. This app allows roommates to record and split house expenses amongst all the members of the house.
- Technologies: Ruby, Ruby on Rails, Authentication using Devise

[Road Trip](#) | [GitHub](#)

- Collaborated with a group to create a gamified learning app, testing users' knowledge on U.S. states. I was Project Lead for my team and wrote most of the game's Javascript as well as implemented authentication with the Devise gem. Honorable Mention: Best Team Dynamic
- Technologies: Ruby, JavaScript, jQuery, Ruby on Rails, Ajax, PostgreSQL database, Authentication using Devise, Testing with Rspec, Capybara, and Jasmine, Nokogiri gem

[Constituent Connect](#) | [GitHub](#)

- Constituent Connect was my final project for WDI. This app seeks to remedy the problem of lost call data in Congressional offices by providing a dashboard to enter call and caller information as well as search bills and view call data in charts.
- Technologies: Ruby on Rails, AngularJS, JavaScript, jQuery, Sunlight Foundation API, PostgreSQL Database
